

Key Features

- Vehicle Leasing - Operating and Finance Leases
- Direct/Indirect and Third-Party Interfaces
- Accounting and Portfolio Management
- Sales, Property, and Income Tax Reporting
- General Ledger and Tax Accounting Automation

Shaw Systems Associates, Inc. has been helping financial services organizations streamline their operations since 1967. Our software solutions include consumer, commercial, and lease servicing, as well as collections and recovery. More than 300 clients in eight countries have enhanced their business by implementing our products.

Vehicle lessors require a solution that can meet changing consumer demands with effective products and services. Flexibility is important as well as having the ability to offer unique product features.

Shaw Systems' **LEASING** solution offers sophisticated controls where customers can manage their individual processing options. The system provides facilities for centralized and decentralized data entry, balancing, and reporting. Product controls automatically allow for variations by company, state, customer, or market. Enterprise reporting provides flexibility for depicting corporate hierarchies and overall portfolio performance measurements.

LEASING is a full-featured lease portfolio management system designed to handle the full range of lease transactions. Shaw provides integrated features for automating and navigating the dynamic and competitive landscape. **LEASING** features complete real-time accounting, sales tax, property tax, and income tax reporting.

Vehicle leasing finance organizations can obtain business faster and at a lower cost with Shaw Systems' solution. Expanding customer relationships with competitive offerings, while managing risk, increases our clients' competitive advantage.

STRATEGY CONSULTING

Shaw Systems brings in-depth knowledge of lease management and best practices to every project. Our consultants have decades of experience serving this industry and your peers. We can analyze your existing business processes and drive substantial improvements throughout the implementation.

FLEXIBLE SYSTEM TAILORING

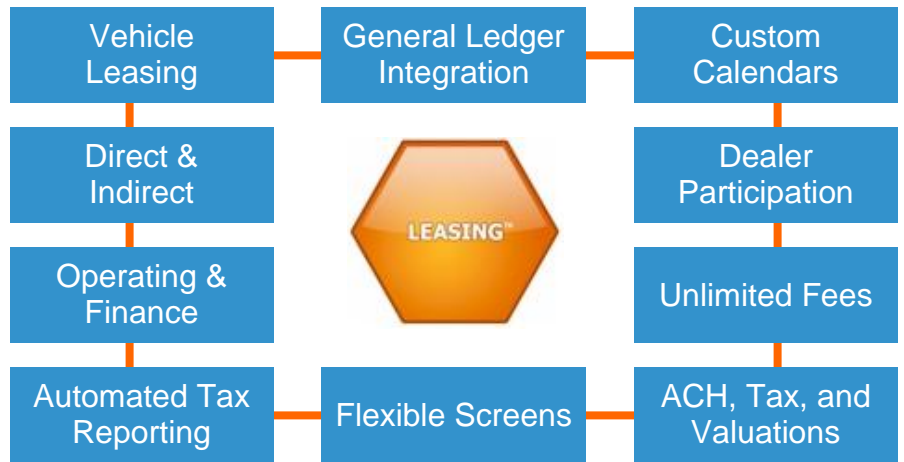

Customers control the content of inquiries so that information displayed is geared towards the user's role. Naming conventions, allowable fees, custom calendars, and multi-company capabilities are all managed in a flexible environment.

SYSTEM AUTOMATION

LEASING automates all aspects of general ledger and tax accounting. Users concentrate on data entry and transactions, while the solution takes care of classifying and reporting. All transactions are posted real time, with full edits, full backdating capability, and full reversals.

BUILT FOR BUSINESS

LEASING has the ability to interface with many types of third-party applications, including ACH, General Ledger, Sales Tax Vendors, Property Tax Vendors, ALG, VINtek, and customer databases. Our customer-centric enterprise suite of products can enhance every process and generate new opportunities. **LEASING** takes advantage of Shaw Systems' many years of industry knowledge, processing stability, sound transaction financial controls, and balancing procedures.
